Date-0521,19-V1.0

25M No Voltage Drop Strip

SC-2835CC-XX

Available colors

W NW WW SWW

Features

- 2835 assembled LEDs.
- Built-in IC, constant current design. Standard constant voltage driver.
- Maximum connection length is 25m.
- The LED strip can be cut to meet requirements of different length.
- CE, RoHS, 5 years warranty.
- Different IP grades can meet the requirements in different environments.
- No resistor, fancy appearance.

Application

- Stage lighting;
- Festival, activities, exhibition lighting, etc;
- Backlight of signage;
- Contour lighting;
- LED luminous characters;
- Landscape decoration lighting.

Technical parameters

Model	Color	Lumen (lm/m)	LED CCT Range	LED Type	LED Qty. (leds /m)	Beam angle (degree)	DC Voltage (V)	Rated Watt (w/m)	IP	CRI

Packaging information

Installation requirement

- The LED strip and accessories can't be squeezed or folded.
- PCB conductive parts can't be damaged when installation.
- Installation must conform to electrical safety standard. The LED strip can only be installed by professionals.
- Ensure power supply transform operating load with transformer.
- When install on metal or conductor surface, insulation protection need to be provided to the contact area.
- Observe positive and negative polarity, ensure correct connection to avoid damaging LED strip.
- When installation, please prevent static electricity.
- The product need anti-corrosion environment, such as, avoiding damp, water drop or other adverse elements.
