

Driver LED tension et courant constants 320W HLG-320H-24

# HLG-320H series

## Caractéristiques :

- Sortie en mode tension et courant constants
- Boîtier métallique de classe I
- Fonction PFC active intégrée
- Indice IP67 / IP65 pour les installations intérieures ou extérieures
- Options de fonctionnement : sortie réglable par potentiomètre ; Variation 3 en 1.
- Durée de vie typique > 62000 heures
- Garantie de 7 ans

## Applications

- Éclairage public à LED
- Éclairage de grande hauteur à LED
- Éclairage des parkings
- Lampe de pêche à DEL
- éclairage de serre à LED
- Type "HL" pour utilisation dans un emplacement dangereux (classé) de classe I, division 2.

## Description

Driver LED à tension et courant constants 320W HLG-320H

Le HLG-320H-24 est un driver LED AC/DC de 320 W doté d'une sortie double modes : tension constante et courant constant . HLG -320 H-24 fonctionne à partir de 90 ~ 305 VAC. Grâce à la haute efficacité jusqu'à 94 %, avec la conception sans ventilateur, il est capable de fonctionner pour une température de boîtier de -40°C ~ +90°C sous convection d'air libre. La conception du boîtier métallique et le niveau de protection contre les intrusions IP67/IP65 permettent à ce driver LED de s'adapter aux applications intérieures et extérieures. HLG-320H-24 est équipé de diverses options de fonction, telles que les méthodologies de variation, de manière à fournir la flexibilité de conception optimale pour le système d'éclairage LED.

## Encodage du Modèle

**HLG - 320H - 24 A**

- Options de fonction
- Voltage nominal de sortie
- Wattage nominal
- Nom de série

|              | PACKING                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | 1.88Kg; 8pcs/16Kg/0.92CUFT                                                                                                                                                                                                                                                                            |
| NOTE         | <p>1. All parameters NOT specially mentioned are measured at 230VAC input, rated current and 25°C of ambient temperature.</p> <p>2. Ripple &amp; noise are measured at 20MHz of bandwidth by using a 12" twisted pair-wire terminated with a 0.1uf &amp; 47uf parallel capacitor.</p> <p>3. Tolerance : includes set up tolerance, line regulation and load regulation.</p> <p>4. Please refer to "DRIVING METHODS OF LED MODULE".</p> <p>5. De-rating may be needed under low input voltages. Please refer to "STATIC CHARACTERISTIC" sections for details.</p> <p>6. Length of set up time is measured at first cold start. Turning ON/OFF the driver may lead to increase of the set up time.</p> <p>7. The driver is considered as a component that will be operated in combination with final equipment. Since EMC performance will be affected by the complete installation, the final equipment manufacturers must re-qualify EMC Directive on the complete installation again.</p> <p>8. To fulfill requirements of the latest ErP regulation for lighting fixtures, this LED driver can only be used behind a switch without permanently connected to the mains.</p> <p>9. This series meets the typical life expectancy of &gt;62,000 hours of operation when Tcase, particularly (Tc) point (or TMP, per DLC), is about 75°C or less.</p> <p>10. Please refer to the warranty statement on MEAN WELL's website at <a href="http://www.meanwell.com">http://www.meanwell.com</a>.</p> <p>11. The ambient temperature derating of 3.5°C/1000m with fanless models and of 5°C/1000m with fan models for operating altitude higher than 2000m(6500ft).</p> <p>12. For any application note and IP water proof function installation caution, please refer our user manual before using.<br/><a href="https://www.meanwell.com/Upload/PDF/LED_EN.pdf">https://www.meanwell.com/Upload/PDF/LED_EN.pdf</a></p> <p>※ Product Liability Disclaimer : For detailed information, please refer to <a href="https://www.meanwell.com/serviceDisclaimer.aspx">https://www.meanwell.com/serviceDisclaimer.aspx</a></p> |                                                                                                                                                                                                                                                                                                       |

## ■ BLOCK DIAGRAM

## ■ DRIVING METHODS OF LED MODULE

- ※ This series is able to work in either Constant Current mode (a direct drive way) or Constant Voltage mode (usually through additional DC/DC driver) to drive the LEDs.

Typical output current normalized by rated current (%)

In the constant current region, the highest voltage at the output of the driver depends on the configuration of the end systems.

Should there be any compatibility issues, please contact MEAN WELL.

## DIMMING OPERATION

### ※ 3 in 1 dimming function (for B/AB-Type)

- Output constant current level can be adjusted by applying one of the three methodologies between DIM+ and DIM-: 1 ~ 10VDC, or 10V PWM signal or resistance.
- Direct connecting to LEDs is suggested. It is not suitable to be used with additional drivers.
- Dimming source current from power supply: 100 $\mu$ A (typ.)

#### ◎ Applying additive 1 ~ 10VDC

#### ◎ Applying additive 10V PWM signal (frequency range 100Hz ~ 3KHz):

#### ◎ Applying additive resistance:

Note: In the case of turning the lighting fixture down to 0% brightness, please refer to the configuration as follow, or please contact MEAN WELL for other options.

Using a switch and relay can turn ON/OFF the lighting fixture.

## OUTPUT LOAD vs TEMPERATURE(Note.10)

## STATIC CHARACTERISTICS

※ De-rating is needed under low input voltage.

## POWER FACTOR(PF) CHARACTERISTIC

※  $T_{case}$  at 80°C

## TOTAL HARMONIC DISTORTION (THD)

※ 48V Model,  $T_{case}$  at 80°C

## EFFICIENCY vs LOAD

HLG-320H series possess superior working efficiency that up to 95% can be reached in field applications.

※ 48V Model,  $T_{case}$  at 80°C

■ LIFE TIME

Case No.202A Unit:mm

## MECHANICAL SPECIFICATION

### ※Blank/D-Type

### ※A-Type

### ※B-Type

## ※AB-Type

## ※C-Type

AC Input Terminal Pin No. Assignment

| Pin No. | Assignment |
|---------|------------|
| 1       | FG $\perp$ |
| 2       | AC/L       |
| 3       | AC/N       |

DC Output Terminal Pin No. Assignment

| Pin No. | Assignment |
|---------|------------|
| 1       | +V         |
| 2       | -V         |

## WATERPROOF CONNECTION

### ※ Waterproof connector

Waterproof connector can be assembled on the output cable of HLG-320H to operate in dry/wet/damp or outdoor environment.

### ※ Cable Joiner

◎ CJ04 cable joiner can be purchased independently for user's own assembly.  
MEAN WELL order No. : CJ04-1, CJ04-2.

### ※ Junction Box Option

◎ Junction box option is available for A / Blank - Type. Please contact MEAN WELL for details.
